

*They said to write a 2020 rap about this year  
Because of everything that happened, I just want to disappear  
Seeing people yelled at brings me to the point of tears  
Will it ever end? That question fills my heart with fear*

*Couple months past March, my whole brain turns to a waffle  
Bout to hit 9 months that is really somethin awful  
When you watch the news, there is always something to dread  
Give thanks to God, cause all your family and friends aint dead*

*Keep your head high up and do not let it crumble  
Keep your faith strong and your heart just as humble  
People need to realize that we all are all the same  
Wake up everybody, this aint no computer game!*
